

9 NEW YEARS RESOLUTION IDEAS FROM DEMLANG BUILDERS

1. Eat Healthy

Love the kitchen again! With ample counter space to make home cooked meals and pantry prep areas like the our Messy Kitchen, you can try out that new healthy recipe in the New Year.

2. Declutter & Organize

Keep the mess where it belongs - from Drop Zones to the ever popular Demlang Family Command Centers we've got plenty of ways to keep you organized in your new home.

3. Exercise

Modern neighborhood design is all about recreation. Find a lot with lots to offer - walking trails, swimming pools, sport courts and more! It makes that exercise plan so much easier than hitting the gym!

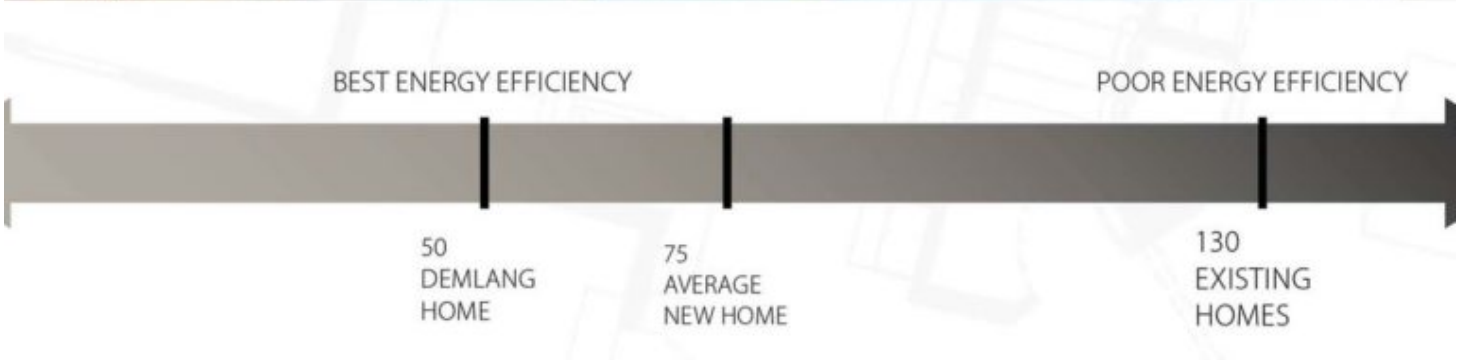

4. Spend More Time with Friends & Family

Kick back and enjoy life with friends and family. Open concept layouts, bonus rooms, finished basements, and special areas like our Social Shanty help you unwind with those you love.

5. Get Projects Done

A spacious and well-equipped garage is the best place to tackle that next woodworking or automotive project! When that space is finished with fantastic epoxy floors and tin wall trim, you'll appreciate how easy it is to clean up after a long day's work.

6. Save Money

By leveraging the [Demlang Energy Savings System](#), each new Demlang home is extensively tested and constructed with energy efficient materials. These added features leave more money in your pocket for the new year!

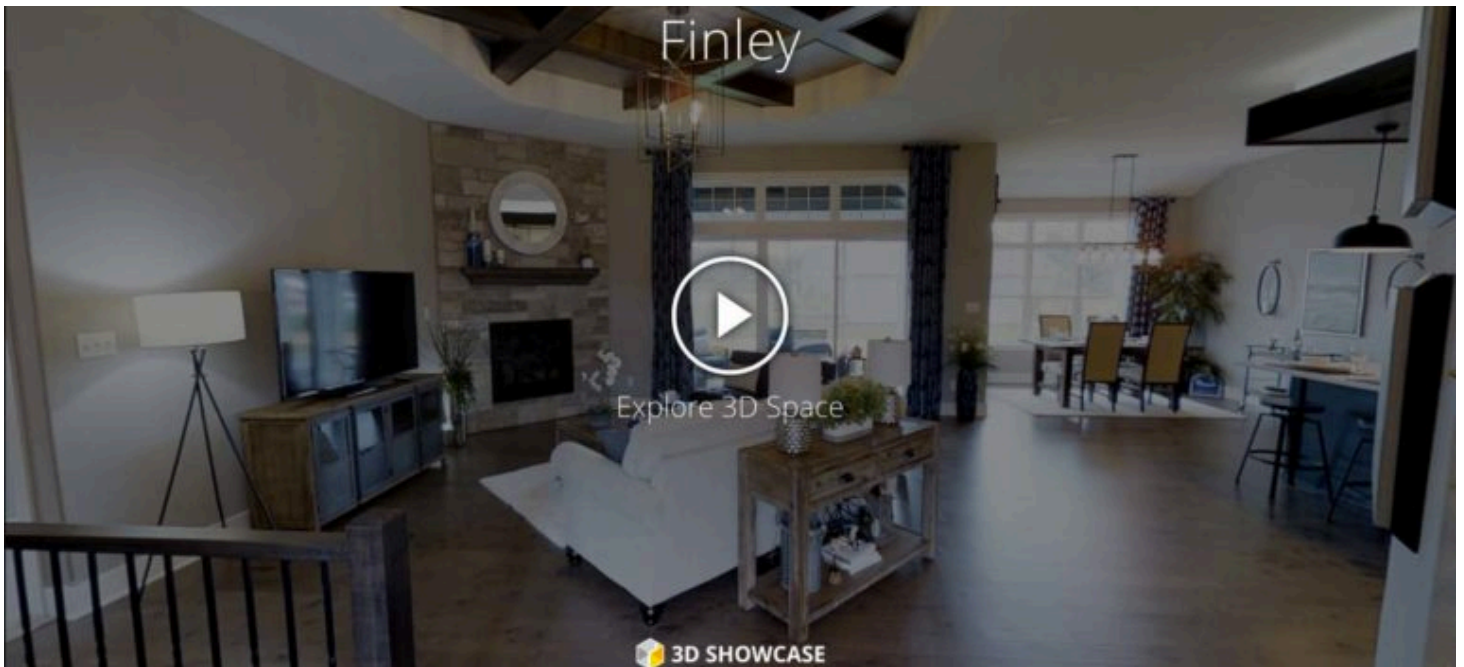

7. Get Better Sleep

Escape from it all in your master suite. Soak in a warm bath before bed, leaving the hassles of the day far behind. Consider a special ceiling treatment like the artistic paint finish in our Finley, and slowly drift off in peace.

8. Travel More

When life gets busy, you have to find time to travel. As Wisconsin's Home Builder, both up north and down south, our team can help you build that Northwoods Retreat you've been dreaming about...making a weekend retreat easier than you ever could have imagined.

9. Use your Time Wisely

In today's digital culture time management reigns supreme! Simplify your home buying process and tour all our homes from the comfort of the couch. Our 3D tours are available day and night, and can serve to help make the home building a much more time efficient process.

From our team to yours, we would like to wish you a Happy New Year. [The Demlang crew](#) is always on call to help make your home building resolutions come true!
